* See actual warranty for complete details, limitations and requirements.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area. The Cultured Stone® product colors you see are as accurate as current photography and printing techniques allow. We suggest you look at product samples before you select colors.

Woodcrest Carbon

Your peak performance system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. The Owens Corning Roofing System is a lineup of key products that can help provide maximum durability for your roof. And the most protection for your home.

a. VentSure® Ventilation Products.

Help protect your roof from moisture damage, such as warping and cracked shingles, by releasing heat from the attic.

b. High Style® Hip & Ridge Shingles. An attractive way to help protect your ridge vents so they can better do the job of preventing moisture damage to your roof deck.

c. WeatherLock® Waterproofing Underlayment Products. Help guard vulnerable areas where water can do the most damage to your roof: eaves, valleys, dormers and skylights.

d. Owens Corning Shingles. Add durable beauty to your home. Your shingles are your first line of defense against the elements.

e. WoodStart® Starter Shingles. The first step in the proper installation of shingles.

f. Owens Corning Undereave Ventilation Products. Help prevent moisture buildup in your attic by working with ridge vents to keep air moving.

INNOVATIONS FOR LIVING™

A brand built on trust.

When it comes to an investment like a new roof, you of course want a good value for your money. You can feel confident about choosing our roofing products—Owens Corning has been a recognized leader in the building materials industry for over 65 years. We're known for making homes more comfortable, beautiful and durable. And it's likely you've invited our mascot, The Pink Panther,™ into your home already—our building products and famous PINK Insulation have been used in millions of homes across the country.

A job well done.

Part of the peace of mind that comes with a new roof is the knowledge that it was installed properly. So it's smart to hire a professional roofing contractor who offers proven experience and a written estimate. It's a good idea to shop around—see what a few different contractors have to offer in terms of their experience and referrals, as well as in their approach to installation and pricing.

As you weigh your contractor options, consider using an Owens Corning Preferred Contractor—an independent contractor who has been accepted into our network because they meet our strict program criteria. For names in your area, call 1-800-GET-PINK™ or visit www.owenscorning.com.
